Manual Guide

RENTOPOS – Rental Management APP

Preliminary

Rentopos Is an application project designed for offline management needs, we conducted research and found that rental goods management is a business run by a single user or individual business so that the database used is planted on one device.

A rental entrepreneur can rent out several item categories, for example the building equipment category such as diesel, drill, welding equipment Meanwhile,

Media Category can rent video recorders, camcorders, lighting, audio recorders, musical instruments and sound systems.

Furthermore, the entertainment and tourism industry can rent out transportation tools such as bicycles, scooters, surfboards, buoys and so on

Rentopos will later use a local server using an app server such as xampp, apache appserv which is embedded in the device owner.

With the rentopos app it makes it easy for business owners to manage their profits through profit from rental prices, print reports based on certain dates, predict potential profits and minimize losses

Reload

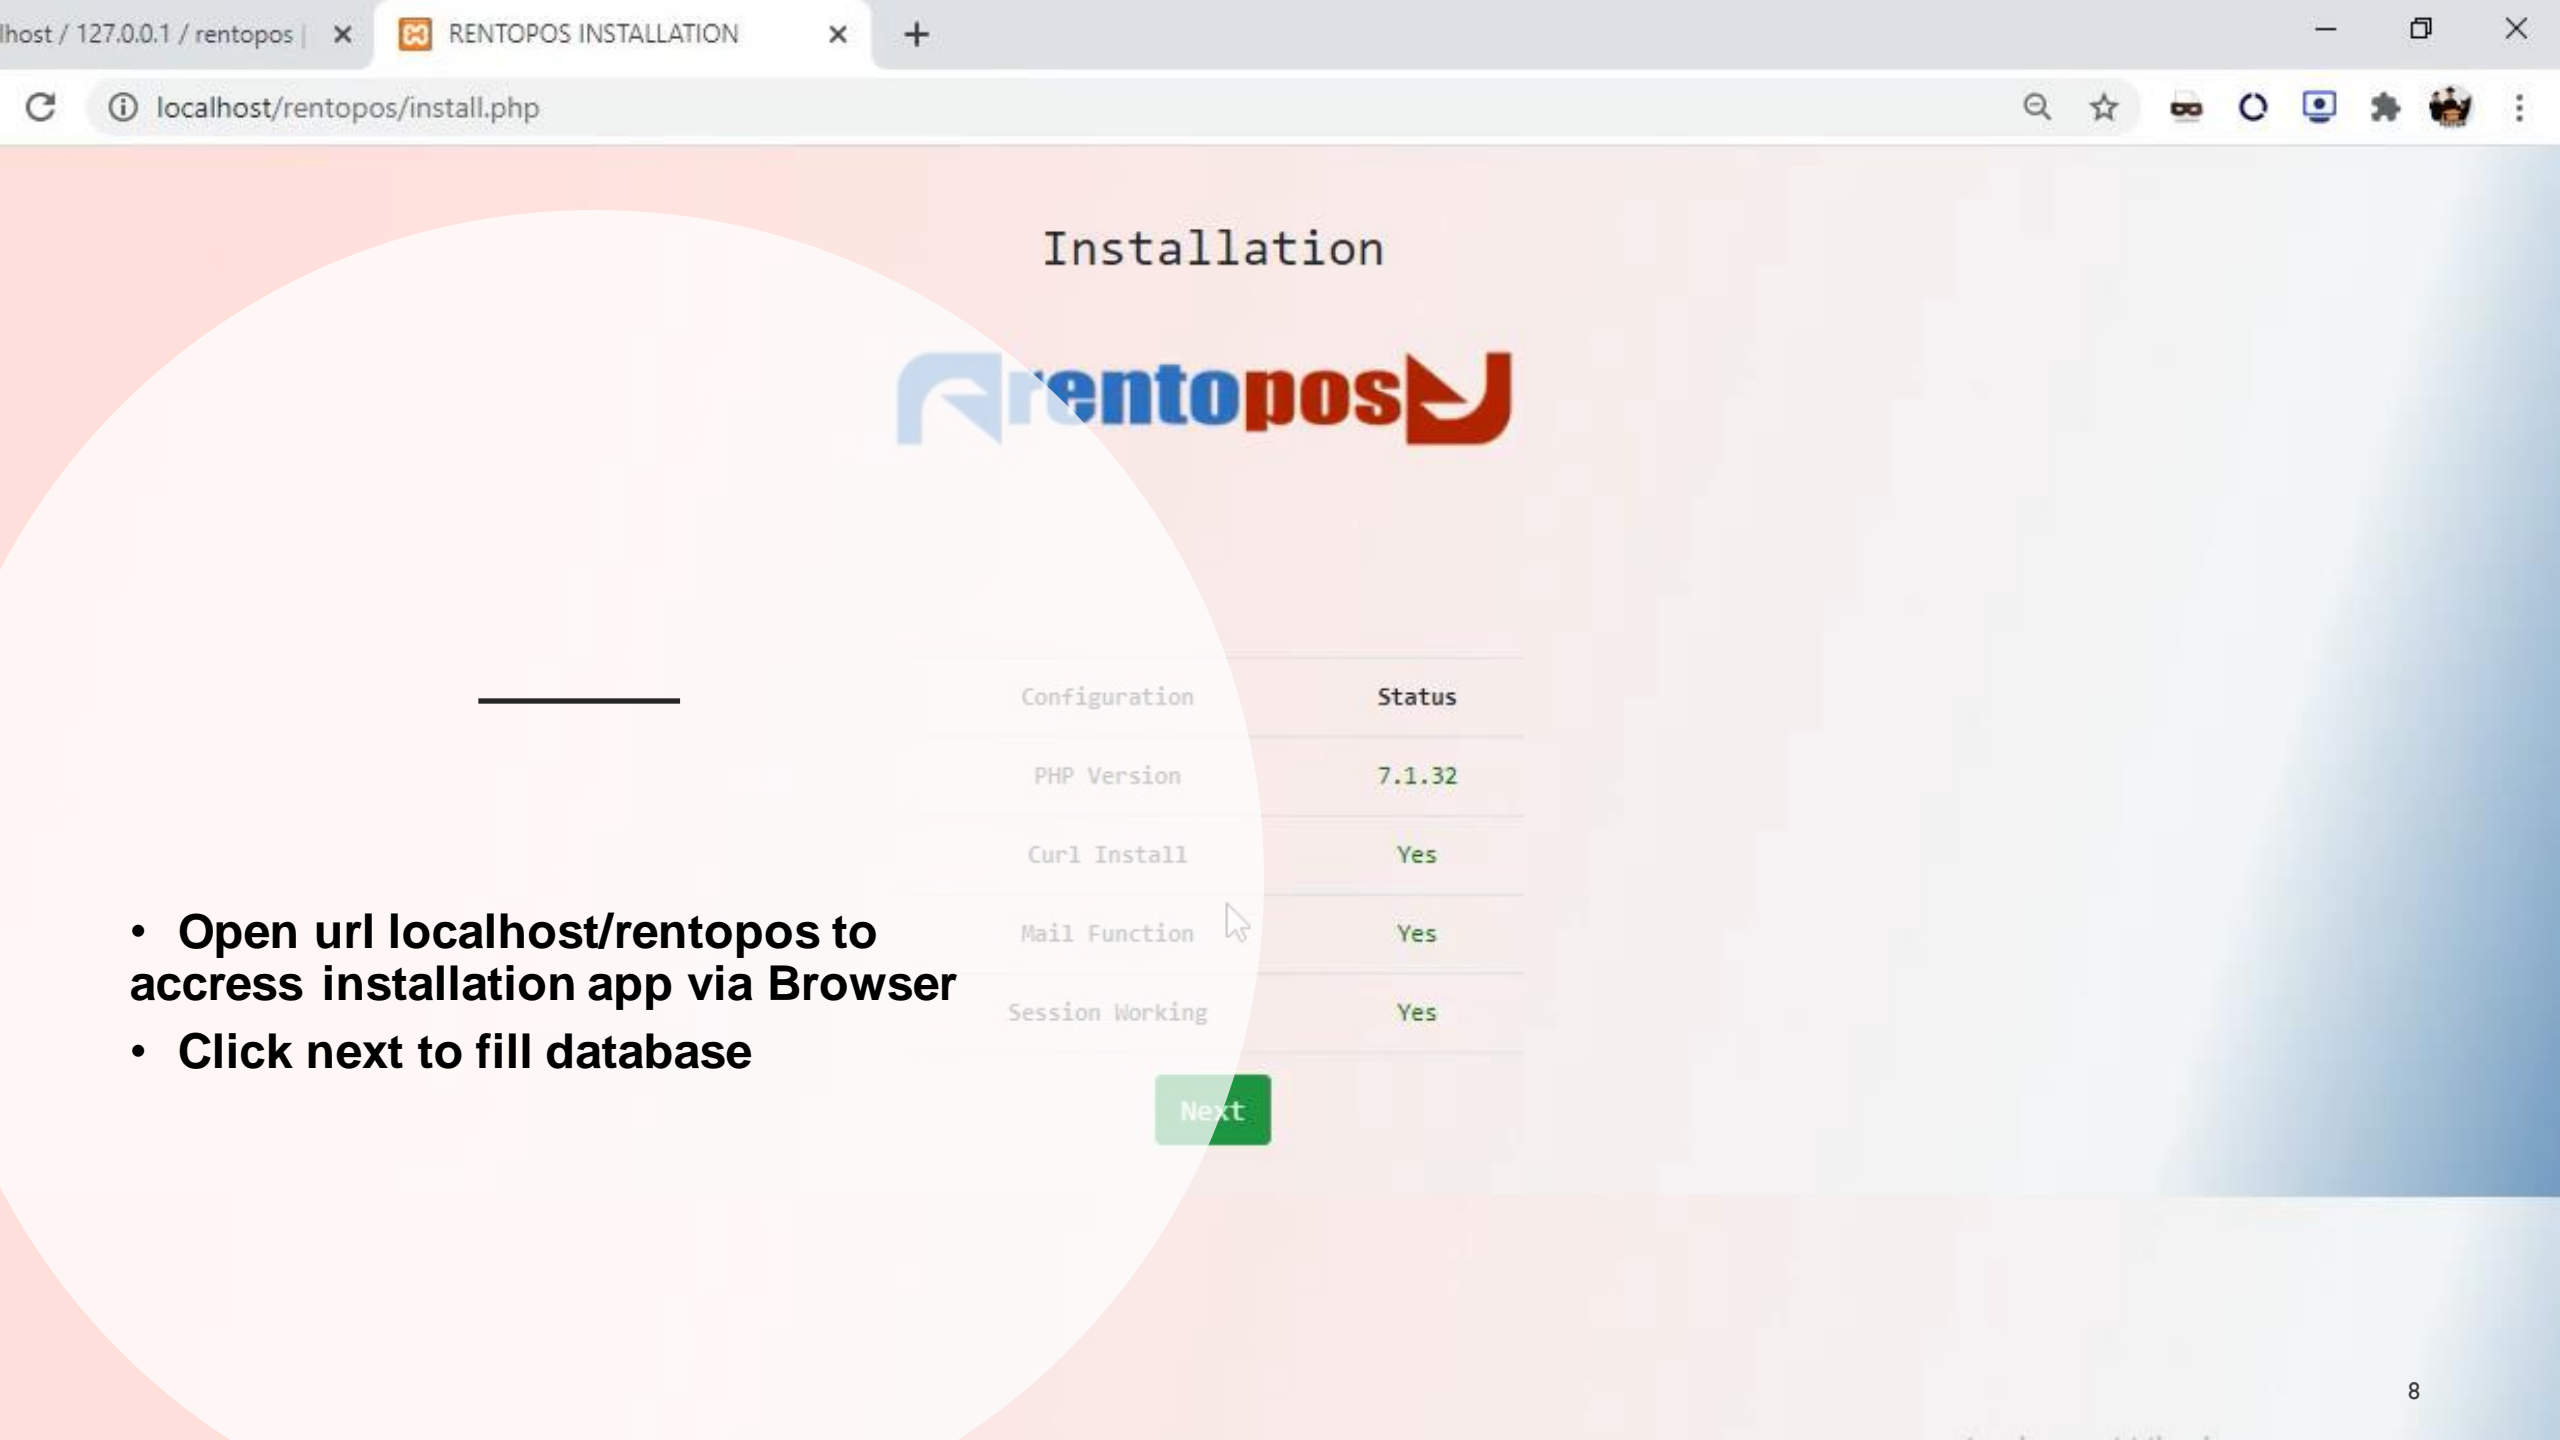

- **Create new folder rentopos on htdocs folder**
- **Move zip files RENTOPOS-SOURCE.zip to rentopos**

- **Extract zip files to folder rentopos**

- Open url localhost/phpmyadmin to access Mysql via Browser
- Create new database, name database rentopos

localhost / 127.0.0.1 / rentopos

RETOPOS INSTALLATION

localhost/rentopos/install.php

Installation

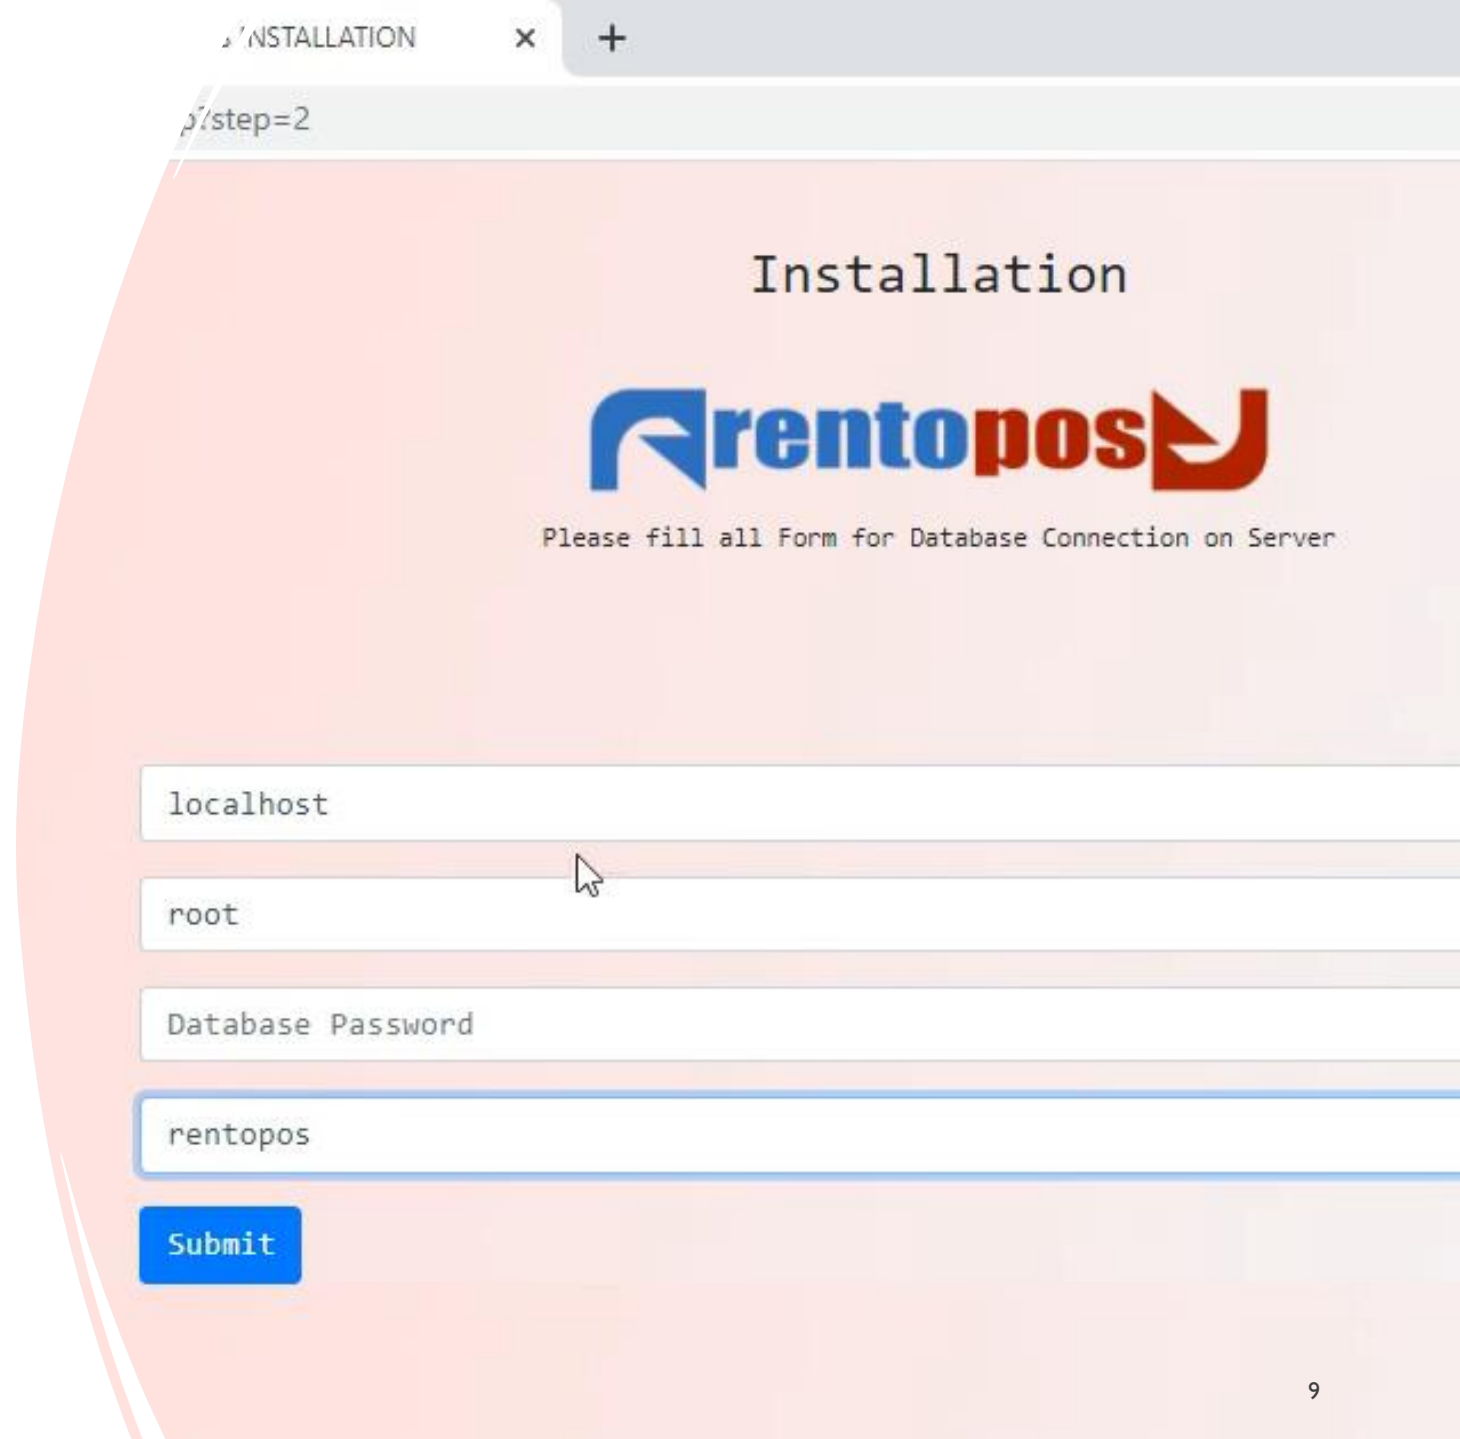

Configuration	Status
PHP Version	7.1.32
Curl Install	Yes
Mail Function	Yes
Session Working	Yes

Next

- Open url localhost/rentopos to access installation app via Browser
- Click next to fill database

-
- Please Fill database server localhost
 - Fill database user, database password and database name
 - Default value for xampp is:
 - Database User: root
 - Database password: (empty)
 - Database Name: rentopos

 - Click Submit

The screenshot shows a web browser window with a single tab titled 'INSTALLATION'. The address bar shows a URL ending in '/step=2'. The page has a light pink background. At the top, the word 'Installation' is centered. Below it is the 'rentopos' logo, which consists of a blue stylized 'r' followed by the word 'rentopos' in blue and red, and a red stylized 's'. Below the logo, a message says 'Please fill all Form for Database Connection on Server'. There are four input fields stacked vertically: the first contains 'localhost', the second contains 'root', the third is labeled 'Database Password' and is empty, and the fourth contains 'rentopos'. A blue 'Submit' button is located below the input fields. A mouse cursor is hovering over the 'root' input field.
